

AMCP Foundation / Genentech, Inc.

2018 EVIDENCE FOR ACCESS SUMMER INTERNSHIP PROGRAM

FREQUENTLY ASKED QUESTIONS

See the Program Overview for Additional Details

Who is eligible to participate in the AMCP Foundation/Genentech, Inc. Evidence for Access Summer Internship Program?

General Requirements:

- Currently enrolled as a full-time Doctor of Pharmacy degree and/or a joint MBA, MPP or
- MPH degree at an ACPE accredited school or college of pharmacy during the 2017-18 school year.
- You must have completed one year of university to be considered for an Internship.
- You must be within two years of last degree attained to be considered for an Internship.
- We do accept applications from international students, however visa sponsorship support varies by position and department.
- All Internships are paid, so you must be legally authorized to work in the United States during your Internship.

If I am not pursuing a dual degree program, such as an MBA, MPP or MPH, should I even bother to apply?

Of course! It is not a requirement that candidates be pursuing a dual degree in those fields. It is only required that candidates be currently enrolled as a full-time Doctor of Pharmacy degree student, as outlined above.

What are the application requirements?

All application requirements are due on or before February 2, 2018.

- Submission of the completed online application via online portal
- One letter of recommendation
- Submission of a Letter of Good Academic Standing from Dean's/ Assistant Dean's office (or the institution's equivalent) confirming that the student is currently enrolled in a pharmacy program and is in good academic standing and **stating the student's current cumulative GPA** via online portal
- Submission of CV or resume via online portal.

What is the internship program start and end dates?

The selected interns complete the program during a 10-12 week period between May and September, 2018. The starting date for each intern may vary, based on his/her availability and the availability of the preceptor at Genentech. Typically, most interns start the internship shortly after completion of their spring semester. Student pharmacists who attend schools with early spring semester completion dates usually start in early May. Some student pharmacists may start their internship as late as the end of June.

The intern must attend new hire orientation on their first day.

Are interns paid?

Intern compensation is determined by market data to ensure competitive intern compensation. Intern rates are determined by degree program and year in school and are consistent across Genentech to ensure internal equity for the program.

Do interns receive benefits?

Genentech interns are currently eligible to use Genentech's on-site gym or sponsored fitness facilities, attend corporate events and participate in training courses. Company holidays are paid. Many Genentech sites provide concierge services through on-site gift shops and company-subsidized cafeterias; interns may benefit from both. Genentech-sponsored events and amenities vary by location.

Does Genentech provide relocation assistance?

Interns who are relocating over 50 miles are eligible for a relocation stipend. Relocation amount varies by location.

How does the selection process work?

Applications are reviewed by AMCP members, AMCP Foundation staff and Genentech recruiters and hiring managers. AMCP Foundation staff will conduct phone or video conference interviews with select candidates and

APPLICATION DEADLINE: FRIDAY, FEBRUARY 2, 2018

make recommendations to Genentech on final candidates. Genentech will interview final candidates and may schedule on-site final interviews. Genentech will make final selections. All candidates will be notified in March 2018.

Should I submit writing samples or school transcripts?

No, please do not submit writing samples, school transcripts or any other material not specifically requested by application instructions.

When will applicants who are selected be notified?

All applicants will be notified the first week of March of the status of their application. Final offers are usually made by Genentech in the end of April.

Will I be required to pass a background check?

Yes. All candidates selected for assignments are required to pass a background check before starting an assignment at Genentech. Employment is contingent upon successful completion of this requirement. In addition, you will need to provide standard documentation to show proof of eligibility to work in the United States. Finally, you will need complete Genentech's standard employment documents prior to starting an assignment.

Will this internship lead to a full-time position?

Although an offer of full-time employment is not guaranteed, the internship program has served as a hiring pipeline for full-time opportunities.

Does Genentech provide an intern orientation?

If selected, candidates will receive a welcome packet and offer letter from Genentech. This information will confirm the student's start date and details on what to expect on the first day.

Besides the full-time internship, what would my summer experience at Genentech include?

Summer Internship highlights include:

- Opportunity to work on challenging, business-critical projects
- Networking opportunities
- Research project development and presentation to senior management
- Career development panels
- Social events (Day trips, volunteer events, Intern social media contest)
- Intern video contest
- VP Lunch and Learn speaker series, which introduces interns to Genentech senior management
- One week rotation at AMCP/ Foundation headquarters in Alexandria, VA.

How much travel is involved?

Interns will be required to travel from their home/school to Genentech campus in South San Francisco, Calif., AMCP/Foundation headquarters in Alexandria, VA, and AMCP Nexus 2018 in Orlando, FL.

How many student pharmacists are awarded internships in the program?

For the 2018 program, two student pharmacists will be awarded internships.

What expenses incurred during the internship program will be reimbursed?

Genentech will handle travel expenses related to any work at Genentech. Housing and commuting expenses are the responsibility of the intern. Interns will be eligible to use Genentech's free daily shuttle service to/from campus. Shuttles commute to many neighborhoods and cities around the San Francisco Bay Area.

Does this internship qualify as a specialty rotation?

The internship **may** qualify as a specialty rotation; however, since each college of pharmacy has its own guidelines for such rotations, the student applying for the program must ascertain the requirements for his/her school. In some cases your school may require Genentech to register with the college or prohibit you from receiving compensation. If the applicant determines that the internship qualifies as a rotation, AMCP Foundation will work with the student pharmacist, wherever possible, to ensure that credit for the rotation can be provided
